- + Drafts available in numerous currencies

Simplify cross-border image exchange.

If your financial institution handles a significant volume of Canadian checks, you need an imaging system that's **fast**, **secure**, and **cost-effective**. Bankers' Bank of the West is pleased to offer you a streamlined solution.

When Canada implemented its new electronic clearing protocol in 2014, U.S.-based systems had to be updated to enable cross-border image exchange. Our service leverages the latest technologies to deliver substantial time and cost savings to our client banks nationwide.

Solutions Delivered Through Canadian Check Imaging

Faster turnaround times

Reduced mailing expenses

Protection from loss or theft of items

Easy integration with current scanning technology

This service also enhances compliance with automatic scanning of items against the U.S. Treasury's Specially Designated Nationals and Blocked Persons List (SDN) through BRIDGE—our user-friendly account management portal.

Key Considerations

Here are a few questions to help you decide if this service is right for your institution:

- + How many Canadian checks do you process each month?
- + Do you currently use an RDC scanner that works with Canadian checks?
- + Do you have a full subscription to BRIDGE?
